

# PKB-6880

## 2 Levels Programmable USB Keyboard

### 2 Levels 43/43 Programmable keys Support

The PKB-6880 programmable keyboard is designed for users seeking efficient and customizable typing solutions. Ideal for gamers, programmers, and anyone who frequently types repetitive text, the PKB-6880 is easy to program using the included Windows-compatible software. Its non-volatile built-in ROM enables seamless operation on any compatible PC without the need for resident software installation after programming. Users can define macros with up to 30 characters per key, while the 43 relegendable keys allow for personalized labeling, enhancing usability and productivity.

## FEATURES

- **Programmable Macros:** Configure up to 30 characters per key for repetitive tasks, boosting productivity.
- **User-Friendly Software:** Comes with Windows-compatible software for easy setup and customization.
- **Non-Volatile ROM:** Operates on any PC without the need for resident software once programmed.
- **Relegendable Keys:** 43 customizable keys for personalized labeling, catering to individual preferences.
- **Versatile Applications:** Perfect for gamers, programmers, and anyone needing to streamline repetitive typing tasks.

SPECIFICATION		
Key Number	104/ 105/ 109 keys (US/ EU/JP)	
Key Switch	Membrane with 10 million life cycle time	
Key Force/ Traveling Distance	50 ± 7 gm / 4 ± 0.5 mm	
Interface	USB 1.1 version	
3 LED Indication	Num Lock, Caps Lock, Scroll Lock	
Input Power	5 VDC, 100mA	
Programmable Keys	2 levels 43/43 programmable keys with relegendable keycaps Green LED / Red LED 43 / 43 programmable keys	
Mode Switch		
Memory Size	Built-in 256KB EEPROM for saving programmable data	
Physical	Dimension	442.99 (L) x 134.0 (W) x 31.5 (H) / 0.9 kg (N. W.)
	Box / Weight	467 (L) x 175 (W) x 52 (H) mm / 1.04 Kg (G.W.)
Accessories	Keycap Puller x 1 , User Manual
